

WORKPLACE & NETWORK RESOURCES

Connect with Girl Scout Cookie™ fans everywhere!

Now there are fresh, new ways to easily collect orders for Girl Scout Cookies® with a wide choice of contactless and low-contact options! We've whipped up plenty of resources to use in workplaces or places within your network—from a fun-to-color poster with pull tabs, to eye-catching clip art and Digital Cookie® platform order cards—all in the We've Got This! Toolkit on LittleBrownie.com.

Build a cookie order station

Get Ready

- Girls can set up shop at a parent/guardian's workplace or a place within their network—with permission, of course!
- Find an area that is off limits to the general public and only accessible to people the girls or their parent/guardian know.

Get Set

- Create a fun order station with colorful signage, a simple cardboard box and some DIY flair.
- Check out our activity sheet and other resources to help girls design and craft a sign-up order station with lots of personality!

Go!

- Customers fill out contact slips with an email address so girls can send their Digital Cookie® link, or customers can complete leave-behind cards to order on the spot.
- Girls can take their marketing to the next level by writing thank you notes, calling customers for reorders—even writing an article for the employee newsletter about their goals this cookie season.

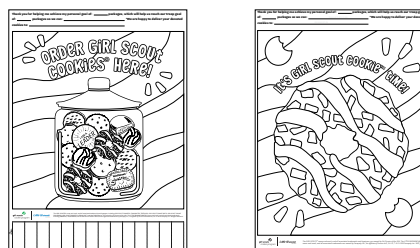

Get crafty with DIY activities

Cookie jar poster with tear-off tabs

Add your contact info to 14 grab-and-go strips, print it out, then add color

Marketing Sheets

Make a splash with cookie ads that are easy to print and color
